SunCorp Sells Bill Pay Services to MY CU[®] Services

Denver, CO – SunCorp Corporate Credit Union has made a strategic decision to sell its E-Quality Bill Pay product to MY CU Services, a CUSO that provides bill pay services to over 500 credit unions nationwide.

After a careful and thorough search, SunCorp selected MY CU Services based upon their commitment to providing bill pay solutions to credit unions, and the synergy SunCorp's members will gain from being serviced by a leader in bill pay services.

SunCorp and MY CU Services expect the transition to be seamless to its users, because MY CU Services uses the same software platform as SunCorp's current bill pay product. Functionality will remain the same, and all member history will be maintained.

“SunCorp's Board of Directors and senior management felt this change would be very beneficial to our members,” said Brandt Peterson, SunCorp Executive Vice President/Chief Financial Officer. “We want our members to have the best online bill pay product around and we feel that MY CU Services will be able to provide them with a strong, versatile product with added features.”

MY CU Services offers secure, streamlined electronic bill payment to credit unions in 46 states, Washington, D.C., and Guam.

SunCorp is one of the top ten corporate credit unions in the nation, providing financial services to credit unions and Credit Union Service Organizations in 20 states. SunCorp operates three Regional Offices, in Denver, Salt Lake City and Omaha. For more information, please visit www.suncorp.coop.
